

Student Council Meeting 13.01.2020 – Additional feedback to be discussed at next meeting

(All feedback has been added to the action plan, except areas bolded that need more clarification. The highlighted questions are included in the Student Council minutes)

Addam Weir – Motor Vehicle L2

- Is it possible to have more information on work placements in garages available for students?

Isaac Dennis – Engineering Science L3

- Buses usually late 502/506 – potential timetable change to reflect this?
- Support Groups / Strictly groups for Maths / Engineering (**please can you give us more info?**)
- Vending Machine prices are too high, more variety in drinks including normal Iron Bru

Paige Halliwell – Access HE Health & Human Sciences

- Could the coffee machine be fixed so cards can be used?
- More information about different university courses (**please can you give us more info?**)
- Fridge for students?
- Time management when having 1:1 sessions

Ben Boardman – Access to HE

- Vegetarian meals not very tasty, maybe try a few different types of Veggie/Vegan meals to give more options
- Tutor availability – 1:1 times when we can take 5-10 minutes and ask any questions about the course or raise any concerns.
- Seats in Classes are uncomfortable and unsupportive for the back and cause pain.

Adam Higginson – Hairdressing L3

- More fruit for sale
- Lounge for students
- Microwave for food from home

Isaac Consadine – Performing Arts L3

- Parking around the Arts & Media Campus is none existent
- Old Water fountains replaced
- Kettle in the Canteen

Will Dixon – Music L3

- Smoking shelter for the Arts & Media Campus?
- Any big plans for the College?
- Try to reduce food wastage

TJ Kay – Hospitality L2

- Could Hospitality L2 get more support workers / Councillors for people with mental health issues?
- Learning support staff that help in Maths or English support one individual too much and not split their time between others

Jack Heald – IT & Software Development L3

- What does the college currently do to reduce drug usage in college?

April Wilkinson – BTEC L3

- Teach people to know when to stop gambling, what's right and wrong?

Lauren Mackereth – Animal Care L2

- Assignment briefs are sometimes hard to understand, is there a way to make them easier? We all ask Learning Services.
- Dashboard can be hard to use – especially to get feedback on assignments
- Would like more trips and visits
- We would like more practical work as most of the course is written assignments
- Need a social space for students that isn't the café. Café is loud, noisy and sometimes messy, puts us off using it.
- IT help is good and Learning Services good
- Some lessons are 4-5pm, these are too late especially in Winter

Joe Gifford – Film L3

- Small recycling bins in class rooms
- Turning off equipment reduce carbon footprint
- Lift share scheme, people driving to college offering seats?

Caleb Brettle – Engineering L3

- Quality of tables and chairs in room 9 are low as they do not fit with each other
- Why don't we have bins in classrooms to help prevent rubbish levels rising?

Molly Oxley – Performing Arts L3

- No safe place to park at Arts and Media Campus

Greg O' Flynn – Film

- Recycling is badly needed, none at Arts & Media or at least none labelled clearly.
- Food waste needs to be reduced, similar set up to People's Café Kendal so that wasted food can be saved and stockpiled
- More automated lights reduce energy

Lizzy Thirlwell – Bakery L2

- Provide college specific buses in the afternoon eg 3-5pm, buses get extremely cramped because the public use them and students have to stand or bring back the 555 Express as the journey to Lancaster. It takes over an hour the express would cut the time in half and make the journey more comfortable as there is more space on the bus.

Matthew Johnston – Film

- Have adapted relatively well to the new teaching situation ie. 3 teachers now, last year we were only taught by 1

Aidan Lea – Music L3

- Smoking shelter down at the Arts & Media Campus
- More recycling stations – food, paper, metal, plastic etc / Water cups / reduce food wastage

Cerys Williams – Hospitality & Catering

- We need more spare uniforms if students forget

Lukasz Gabrys – Business L3

- Can we switch our room 126 classes to conference rooms? Room 126 is too small for our class and chairs don't provide good posture.

Johnathan Dundas – Bench joinery L2

- Why is there only 1 smoking shelter when it is a big campus plus could it have roof and walls on it?

Oliver Banks & Caitlin - Performing Arts L3

- Mirrors in Wildman
- Kettle in the canteen
- Free hot/boiling water
